Inventory Feed Submission

Below are the products you're currently selling on Wayfair. To make changes to your inventory, export the file (Excel or CSV), make updates, and upload it to this page of an item, update the Quantity on Hand cell. If an item is out of stock, add a Next Available Date so customers are aware when this will become in stock. To discontinue an item, enter "1" (one) in the Discontinued cell and report zero quantity on hand.

The old version of Inventory Management will be discontinued in August 2021.

Update

Update - Wayfair Response Required

Complete Ticket

08/08/2021 11:05:28 PM - ()

Thank you for requesting an API integration. Please use this ticket for all communication with Wayfair regarding your set up. To begin onboarding, perform the below:

Step 1) Navigate to the User Management Page (<https://partners.wayfair.com/users>). Grant your accounts API permissions by clicking on the Edit button (Pencil icon) and clicking the API box within "Access Permissions." This grants access to our API Developer tools. You can also use the "Create New User" button to create a new Partner Home account.

Step 2) Navigate to our Onboarding Guide (<https://partners.wayfair.com/help/3/article/867>). Follow the steps outlined in this guide to complete API testing. You need to complete testing before you can go live.

Step 3) Update this ticket with a list of the API queries and mutations you would like to set up. Wayfair will validate your testing steps have been completed and grant you access to our live environment.

When you've completed these steps, or have questions or concerns at anytime, please post an update here and someone will get back to you right away.
